SUBJECT: Proposed Amendment of the Communications Act to provide
Reciprocity

3. In the event that it appears, after the presentation of all views to the President, he will reach either no conclusion or a negative decision, it is suggested that you propose the referral of the problem for further consideration to the Office of Defense Mobilization where it can be studied by the Telecommunications Advisory Board. Such action will insure that the subject is kept active and under continuing consideration at a relatively high level. As you recall, I have been designated by you the representative for CIA on the Telecommunications Advisory Board.

Director of Communications
